

APPENDIX

NOTES ON STATISTICS AND STATISTICAL STATEMENTS

1. General. - The statistical tables in this Report may be incomplete and subject to revision. The information has been primarily derived from replies by the aid supplying countries to a questionnaire sent to all governments; in all, fourteen countries sent statistical replies but only three provided memoranda covering development policies. Where statistical data provided by recipient countries differ from those given by supplying countries, the latter have been used as there has not been time to reconcile discrepancies.
2. Area coverage. - The Commonwealth has been defined as self-governing members of the Commonwealth and associated and dependent territories as at December 1969. Where necessary, adjustments have been made to the figures for earlier years to ensure comparability.
3. Rounding. - The addition of individual items in columns does not necessarily add to the totals given owing to rounding.
4. Conventional signs. - The following symbols have been used:
 - nil or negligible
 - .. not available
 - () figures in brackets are either incomplete or Secretariat estimates.

STATEMENT I (PART 1)
